Work Experience

February 2020 - present

THE NEUROBEHAVIORAL INSTITUTE, Weston, FL
NBI Ranch

Residential Program Director

- Serve as a liaison between residents, Residential Counselors (RC's) and members of the NBI HQ intensive outpatient treatment (IOP) team.
- Responsible for the hiring, training and continued on-going supervision for all Residential Counselors.
- Facilitate Ranch staff meetings.
- Recommend and provide therapeutically indicated work, volunteer and leisure activities for all residents during their downtime from IOP.
- Ensure safety and policy procedures for residents and staff are properly implemented and maintained.

- Establish risk management procedures, respond to critical incidents and create clinical report and pre/post incident debriefing.
- Maintain and monitor resident and staff satisfaction.
- Network and collaborate with Education Consultants and other professionals to educate and promote the NBI Ranch mission statement.

NBI Headquarters

Clinical Psychologist

- Provide individual, family and group psychotherapy treatment in a team oriented, dynamic, private practice setting.
- Provide parent training/psychoeducation and collaborate with other parenting experts to provide intensive parent training workshops.
- Implement evidence-based treatments and interventions for children, adolescents, adults and families with OCD and other related disorders, including Anxiety Disorders, Mood Disorders, ADHD, ODD and PTSD.

May 2005 - July 2006

OUR CHILDREN OUR FUTURE, INC., Hollywood, FL

Director of Training

Staff Psychologist

- Provided psychotherapy services to children, adolescents and families within a low SES, ethnically diverse outpatient agency.
- Performed comprehensive evaluations for children, adolescents and families using both structured and semi-structured evaluation instruments to facilitate assessment, diagnosis and treatment planning.
- Created a comprehensive, structured student practicum for Doctoral level psychology students.

Clinical Supervisor

- Provided individual, group and family therapy supervision to Doctoral level psychology students and unlicensed Doctoral graduates.
- Supervised full and partial psychological assessment batteries for severely emotionally disturbed children and adolescents. Assessments supervised were typically used by the diagnostic treatment team, Courts, Department of Children and Families (DCF) and other referring agencies to make treatment and placement decisions.
- Supervised in-depth intake assessments and conducted a weekly intake seminar.
- Taught psychotherapy, assessment and testing didactics and facilitated formal case conference presentations on a bi-monthly basis.

September 2002 – July 2003

**ST. MARY'S CHILDREN AND FAMILY SERVICES, Syosset, NY
Birmingham Hall Intensive Residential Treatment Center (I-RTC)**

Staff Psychologist

- Conducted individual, group and family therapy to 13-18 year old SED adolescent males in a residential treatment setting.
- Provided on-campus crisis intervention as well as 24/7 crisis coverage.
- Responsible for all aspects of resident treatment, including mental status assessments, special watch placement, hospitalizations, discharge and treatment planning.

Program Coordinator

- Conducted and coordinated bi-weekly treatment team meetings for unit program manager, psychology interns and externs, RTC director, social workers, nurse practitioner, unit child care workers I & II, residents, families and other social service/agency related workers.
- Conducted & coordinated daily staff rounds & weekly resident community meetings.
- Implemented and participated in campus-wide behavioral management program.
- Collaborated with administration and contributed to the successful transformation from Residential Treatment Center to Intensive Residential Treatment Center.

Supervising Psychologist

- Provided supervision to Doctoral level psychology interns and externs within an APA approved internship program.
- Supervised individual, group and family therapy cases on campus (e.g., RTC and Diagnostic), in group homes and in a preventive services outpatient clinic.
- Supervised full and partial psychological assessment batteries for SED children and adolescents. Assessments were predominantly used by the diagnostic treatment team, courts, Department of Social Services and other referring agencies to make placement and treatment decisions.
- Supervised comprehensive risk assessments for male, juvenile sexual offenders.
